DETAILED ACTION

Status of the Claims

Claims 1-23 are pending. Claims 1-21 and 23 were previously found allowable.
 Claim 22 was previously rejected.

Response to Arguments

 Applicant's arguments filed September 29, 2008 have been considered and found persuasive. Thus, the rejection of claim 22 is withdrawn.

Claim Rejections - 35 USC § 102

 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claim 22 is rejected under 35 U.S.C. § 102(b) as being clearly anticipated by Krause et al., Organometallics, 11(3), pp. 1158-1167 (1992). The article by Krause et al. discloses a palladium(0) compound having a 1,5-hexadiene as a ligand. Although the Krause et al. product was made by a different process, it is the Examiner's position said product compound is essentially the same as in the product-by-process claim 22. Note that claim 22 is directed to the product and not the process which is made.

Allowable Subject Matter

Claims 1-21 and 23 are allowed.
